PROFILE SUMMARY

Junior Frontend Developer with hands-on experience building responsive web applications using Vue.js, React.js, JavaScript, Firebase, HTML5, CSS3, and Tailwind CSS. Skilled in developing reusable components, integrating REST APIs, implementing authentication, and managing application state. Experienced in creating responsive, user-friendly interfaces, optimizing frontend performance, and delivering clean, maintainable code. Strong problem-solving, communication, and collaboration skills, with a passion for learning modern technologies and building impactful web solutions.

WORK EXPERIENCE

Fottify (Remote) 2024 - 2026
Frontend Developer

- Built responsive UI components using Vue.js, HTML, CSS, and JavaScript.
- Integrated APIs and collaborated with team members to deliver new features and improve usability.
- Debugged and optimized application performance across browsers and devices.

Elori Global Services 2023 - 2024
Administrative Support

- Provided administrative and operational support in a hybrid/remote environment.
- Managed digital records, documentation, and data entry with a focus on accuracy and organization.
- Supported daily workflows using Google Workspace and Microsoft Office; coordinated tasks and tracked progress.

PROJECTS

MOVIE DISCOVERY APP

Built a movie discovery application using Vue 3, Pinia, Firebase, and movie APIs with dynamic routing, authentication, favorites, and a responsive UI.

E-COMMERCE FRONTEND

Developed a responsive e-commerce frontend with product listing, cart, checkout, reusable components, and LocalStorage-based cart persistence.

WEATHER APP

Built a weather app using Vue.js and a public API with real-time updates and responsive design.
